

No. KUDSIT/501/AR.AD/2022  
 Dated: 20.06.2022

Technocity,

### NOTIFICATION

Kerala University of Digital Sciences, Innovation and Technology invites applications from qualified Indian Citizens for appointment to the following posts (on a contract basis) under the **Big Data Analytics Project** of the University. Candidates shall apply online through the Recruitment Portal. The guidelines for the submission of applications are available in the recruitment portal.

#### **DETAILS OF POST, QUALIFICATION, EXPERIENCE ETC. REQUIRED**

##### **I. Sr. System Administrator**

<b>Job Code</b>	: SSA/062022/290
<b>Name of Post</b>	: <b>Sr. System Administrator</b>
<b>Remuneration</b>	: <b>55,000/- – 75,000/- Consolidated</b>
<b>Age</b>	: Should not exceed <b>40 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	B-Tech/BE/MCA/M-Tech/MSc in IT or Computer science from a recognized University/Educational Institution.  <b>Desirable:</b> Certification in CCNA, RHCE/LPI RHCSA
<b>Essential Experience</b>	6 year's relevant experience (out of which Minimum 3 years proven experience as a System Administrator/ Network Administrator/Senior Tech Support Engineer or similar role) in a reputed institution
	<ul style="list-style-type: none"> <li>Set up and manage distributed clusters/ workstations.</li> <li>Setup LAN and cluster installations (With Linux, Hadoop, Hbase, Spark, ELK, Pig, Couchbase etc).</li> <li>Build an internal repo with technical documentation, manuals, and IT</li> <li>Manage and configure Firewall and Proxy systems as per requirements.</li> <li>Implementation, Management of GIT and other TFS/SVN servers.</li> <li>Network Security Tool setup, administration, and management.</li> <li>Administration of Biometric, EPABX, and other access control systems.</li> </ul>

<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Install and configure software and hardware.</li> <li>• Manage network servers and technology tools.</li> <li>• Monitor performance and maintain systems according to requirements.</li> <li>• Troubleshoot issues and outages on network and cluster nodes.</li> <li>• Configure and manage Active Directory, DHCP, and DNS (Linux/Windows).</li> <li>• Install and configure an Active Directory Domain Controller.</li> <li>• Ensure security through access controls, backups, and firewalls.</li> <li>• Upgrade systems with new releases and models.</li> <li>• Develop expertise to train staff on new technologies.</li> <li>• Ensuring security and efficiency of IT infrastructure.</li> <li>• Install and setup IT infrastructure management tools on production servers.</li> </ul>
<b>Skills Required</b>	<p><b>Communication skills:</b> Work on teams and must communicate effectively with clients, managers, faculties, developers, and other workers.</p> <p><b>Problem-solving skills:</b> When Network problems come up, administrators must troubleshoot them and resolve the problems.</p> <p>Excellent written and verbal communication skills</p>
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

**II. Sr. Technology Lead**

<b>Job Code</b>	: <b>STL/062022/290</b>
<b>Name of Post</b>	: <b>Sr. Technology Lead</b>
<b>Remuneration</b>	: <b>1,20,000/- – 1,30,000/- Consolidated</b>
<b>Age</b>	: Should not exceed <b>40 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	B-Tech/BE/MCA or M-Tech/MSc in Information Technology or Computer Science from a recognized University/Educational Institution.
<b>Essential Experience</b>	10 year's relevant experience in a reputed institution
	<ul style="list-style-type: none"> <li>• The JAVA Professionals will be required to apply their proficiency and experience in Core Java/J2EE, Microservices, and SpringBoot framework for the development of various applications within the projects, and ensure timely and quality delivery to the customer.</li> <li>• Understand the requirements, and current state architecture of the enterprise and create a roadmap for the future enhancements accordingly.</li> <li>• Define Integration Design and Security Design for the Web Services and Enterprise components involved.</li> </ul>

<p><b>Responsibilities</b></p>	<ul style="list-style-type: none"> <li>• Participate in the production of detailed functional design documents to match customer requirements.</li> <li>• Participate in the production of technical specifications for development and integration requirements.</li> <li>• Review design documents for services such as Service Design Document, and Service physical Document and define Service SLAs in Non-functional requirements.</li> <li>• Mentor and train project team members on the Solution details for smoother execution.</li> <li>• Take ownership of the development activities and work closely with end-users (both internal and external clients) to translate requirements into data-driven applications and data visualization solutions.</li> <li>• Responsible for data injection, transformation, analysis, and visualisation</li> <li>• Design and implementation of medium to large custom application data models.</li> <li>• Ensure quality deliverables.</li> </ul>
<p><b>Skills Required</b></p>	<p>Java, Javascript, JQuery, Angular, HTML5, CSS3, Postgresql, MySQL, Oracle, MongoDB/ElasticSearch, Spring Boot, Hibernate, SOAP/Rest Web services, Micro services Architecture, Maven, PL/SQL for writing queries, Agile, CI/CD like Jenkins.</p> <p><b>Secondary Skills:</b> API design and development, AWS/Gcloud, ADO Knowledge of SQL and NoSQL platforms (such as MySQL/PostgreSQL, Oracle, ElasticSearch/MondoDB/CouchBase, knowledge in key-value stores, graph databases, RDF triple stores)</p> <ul style="list-style-type: none"> <li>• Able to coordinate and prioritize technical tasks and deliver within agreed timelines.</li> <li>• Ability to provide technical system solutions, determine overall design direction and provide hardware recommendations for complex technical issues.</li> <li>• Experience planning and developing support processes and adhering to best practices.</li> <li>• Experience designing, integrating and managing complex software solutions.</li> <li>• Experience with web technologies and enterprise architectures.</li> <li>• Good understanding of Open source (Java / J2EE applications) as well as MySQL/Postgres/Oracle and their deployment and integration across an enterprise.</li> <li>• Knowledge of client-server networking and database management concepts. Up to date knowledge of technology including Service Oriented Architecture, Event driven architectures and web application development concepts.</li> <li>• Web server and application server administration and web applications deployment experience.</li> <li>• Ability to quickly comprehend the functions and capabilities of new technologies.</li> </ul>

	<ul style="list-style-type: none"> <li>• Understanding of system security, including encryption standards, SEIM and network segregation.</li> <li>• Able to create delivery plan for enhancements and track with team to closure.</li> <li>• Excellent verbal and written communication skill, ability to speak with customer, understand the tasks, share actions and handle escalations.</li> <li>• A team player with a to do attitude for delivering the assigned work. Should be ready to do hands on work for any new feature, PoC, client ask where needed.</li> <li>• Extensive experience in the IT industry.</li> <li>• Sound knowledge of estimation techniques.</li> <li>• Sound knowledge of Java / J2EE, Web Services etc..</li> <li>• Good understanding of unit testing methodologies.</li> <li>• Extensive knowledge in design, creation and consumption of RESTful API</li> <li>• Extensive knowledge in automated unit testing using JUnit, EasyMock, PowerMock, and Mockito</li> <li>• Extensive Knowledge in writing SQL queries and interacting with database systems such as Oracle, SQL Server</li> <li>• Excellent analytical skills.</li> <li>• Exceptional communication skills</li> <li>• Product development experience would be an added advantage</li> </ul>
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

### III. Security Analyst

<b>Job Code</b> <b>Name of Post</b> <b>Remuneration</b> <b>Age</b>	<b>: SA/062022/290</b> <b>: Security Analyst</b> <b>: 35,000/- – 55,000/- Consolidated</b> <b>: Should not exceed 30 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	B-Tech/M-Tech/MSc in Information technology/MSc in Computer science (Specialization in Cyber Security) from a recognized University/Educational Institution.
<b>Essential Experience</b>	Should have a minimum 12 months of industry experience in the Cyber Security Area
	<ul style="list-style-type: none"> <li>• Cybersecurity monitoring. Respond to cybersecurity incidents; conduct threat analysis as directed and address detected incidents for resolution</li> <li>• Reviews alerts. Determine relevancy and urgency</li> <li>• Create new incident</li> <li>• Evaluate event flows to identify common risks and vulnerabilities to develop and implement solutions</li> </ul>

<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Ethical Hacking and Testing of vulnerabilities of implementations.</li> <li>• Researching the Organization's system, network structure, and possible penetration sites.</li> <li>• Conducting multiple penetration tests on the system.</li> <li>• Identifying and recording security flaws and breaches.</li> <li>• Identifying areas of high-level security. Reviewing and rating the security network.</li> <li>• Creating suggestions for security upgrades. Compiling penetration test reports for the client.</li> <li>• Conducting penetration tests once new security features have been implemented.</li> </ul> <p><i>Development knowledge in Java/Python and Spring boot/Django framework would be considered as an added advantage.</i></p>
<b>Skills Required</b>	<p><b>Python, ML/DL, MySQL/SQL Server/Oracle/PostgreSQL</b></p> <ul style="list-style-type: none"> <li>• Analytical ability,</li> <li>• Administering Information Security Software and Controls</li> <li>• Analysing Security System Logs, Security Tools, and Data</li> <li>• Creating, Modifying, and Updating Intrusion Detection Systems (IDS)</li> <li>• Creating, Modifying, and Updating Security Information Event Management (SIEM)</li> <li>• Experience with Intrusion Prevention Systems and Tools</li> <li>• Deep Understanding of Risk Management Frameworks</li> <li>• Defining Process for Managing Network Security</li> </ul>
<b>Nature of Appointment</b>	<p>The full-time contract appointment will be initially for a period of one year. However, the term can be extended based on the performance and requirements.</p>

**IV. Sr. Database Administrator**

<b>Job Code</b>	: <b>SDA/062022/290</b>
<b>Name of Post</b>	: <b>Sr. Database Administrator</b>
<b>Remuneration</b>	: <b>70,000/- – 85,000/- Consolidated</b>
<b>Age</b>	: Should not exceed <b>45 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	B-Tech/BE/MCA or M-Tech/MSc (in Information Technology or Computer science) from a recognized University/Educational Institution.
<b>Essential Experience</b>	8 year's relevant experience ( out of which minimum of 4 years experience as a DBA in a production and development environment with SQL Server/MySQL/Oracle and PostgreSQL) in a reputed institution
	<ul style="list-style-type: none"> <li>• Administration of database objects such as indexes, tables, views, constraints, and stored procedures.</li> <li>• Archiving, backup/recovery, replication, cloning, import/export and refresh.</li> <li>• Administration of database users.</li> </ul>

<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Capacity Management and storage management.</li> <li>• Design, test, and optimize/tune RDBMS components.</li> <li>• Contribute to design, maintenance, and documentation of integrated database security and components in relation to SOX and SAS70 compliance.</li> <li>• Review and assess new features or upgrades to existing RDBMS components as well as application database changes.</li> <li>• For databases that may be supported in the future, review product literature to assess RDBMS differences and unique features.</li> <li>• Strong agile/scrum development experience</li> </ul>
<b>Skills Required</b>	<ul style="list-style-type: none"> <li>• PostgreSQL, MySQL, Oracle, MongoDB/Elasticsearch/ Couchbase</li> <li>• <b>Analytical skills:</b> DBAs must monitor the database performance and evaluate complex information coming from a variety of sources.</li> <li>• <b>Communication skills:</b> Work on teams and must communicate effectively with clients, managers, developers, and other workers.</li> <li>• <b>Detail oriented:</b> Working with a database requires the administrator to have an understanding of complex systems, and how a minor error can cause major problems.</li> <li>• <b>Problem-solving skills:</b> When problems come up, administrators must troubleshoot them and resolve the problems.</li> </ul>
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

**V. Sr. Software Engineer (Java)**

<b>Job Code</b> <b>Name of Post</b> <b>Remuneration</b> <b>Age</b>	<b>: SSEJ/062022/290</b> <b>: Sr. Software Engineer (Java)</b> <b>: 50,000/- – 75,000/- Consolidated</b> <b>: Should not exceed 35 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	B-Tech/BE/MCA or M-Tech/MSc in Information Technology or Computer science from a recognized University/Educational Institution.
<b>Essential Experience</b>	3 year's relevant experience in a reputed institution
	<ul style="list-style-type: none"> <li>• 2+ years of experience developing web applications using J2EE.</li> <li>• Minimum 3 years proven industry experience as a Web developer</li> <li>• 1+ years of experience in Spring Boot.</li> </ul>

<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Good knowledge of MicroServices.</li> <li>• Experience working with tools like Git, Maven, JFrog, UDeploy.</li> <li>• Expertise developing enterprise-level web applications and RESTful APIs using MicroServices, with demonstrable production-scale experience.</li> <li>• Demonstrate strong design and programming skills using JSON, Web Services, XML, XSLT, PL/SQL in Unix and Windows environments.</li> <li>• Strong background working with Linux/UNIX environments.</li> <li>• Working knowledge with PostgreSQL, MySQL, DB2 or Mongo DB databases.</li> <li>• Passion to stay on top of the latest happenings in the tech world and an attitude to discuss and bring those into play.</li> <li>• Strong agile/scrum development experience</li> <li>• Strong collaboration and communication skills within distributed project teams</li> <li>• Excellent written and verbal communication skills</li> </ul>
<b>Skills Required</b>	Java, Javascript, JQuery, Angular, HTML5, CSS3, Postgresql, MySQL, Oracle/MongoDB/ElasticSearch, Spring Boot
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

#### VI. Sr. Software Engineer (.Net)

<b>Job Code</b>	: <b>SSEN/062022/290</b>
<b>Name of Post</b>	: <b>Sr. Software Engineer (.Net)</b>
<b>No. of Vacancies</b>	: <b>50,000/- – 75,000/- Consolidated</b>
<b>Remuneration</b>	: Should not exceed <b>35 Years</b> as on the last date for submission of
<b>Age</b>	Application.
<b>Essential Educational Qualification</b>	B-Tech/BE/MCA or M-Tech/MSc (in Information Technology or Computer science) from a recognized University/Educational Institution.
<b>Essential Experience</b>	3 year's relevant experience in a reputed institution
<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Good knowledge of MicroServices.</li> <li>• Experience working with tools like Git/GitHub.</li> <li>• Expertise developing enterprise-level web applications and RESTful APIs using MicroServices, with demonstrable production-scale experience.</li> <li>• Demonstrate strong design and programming skills using JSON, Web Services, XML, XSLT, PL/SQL in Unix and Windows environments.</li> <li>• Strong background working with Windows and Linux/UNIX environments.</li> <li>• Working knowledge with PostgreSQL, MySQL, Maria DB or Mongo DB databases.</li> <li>• Passion to stay on top of the latest happenings in the tech world and an attitude to discuss and bring those into play.</li> </ul>

	<ul style="list-style-type: none"> <li>• Strong agile/scrum development experience</li> <li>• Strong collaboration and communication skills within distributed project teams</li> <li>• Excellent written and verbal communication skills</li> </ul>
<b>Skills Required</b>	C#, .Net Core, Javascript, JQuery, Angular, HTML5, CSS3, Postgresql, MySQL, Oracle and MongoDB/ElasticSearch, MVC
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

### VII. Software Engineer (Kotlin/Java)

<b>Job Code</b>	: <b>SEKJ/062022/290</b>
<b>Name of Post</b>	: <b>Software Engineer (Kotlin/Java)</b>
<b>Remuneration</b>	: <b>50,000/- – 75,000/- Consolidated</b>
<b>Age</b>	: Should not exceed <b>35 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	MCA or B-Tech/BE/M-Tech/MSc (in Information Technology or Computer science) from a recognized University/Educational Institution.
<b>Essential Experience</b>	3 year's relevant experience in a reputed institution
<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Good experience in Java/Kotlin programming.</li> <li>• Very strong logical skills</li> <li>• Knowledge in development IDE Android Studio, Android SDK, Firebase Test Lab</li> <li>• Knowledge of Material Design and Android UI design principles, patterns and best practices</li> <li>• Good knowledge of MicroServices.</li> <li>• Experience working with tools like Git, Maven, etc</li> <li>• Expertise developing enterprise-level web applications and RESTful Services using MicroServices, with demonstrable production-scale experience.</li> <li>• Demonstrate strong App design and programming skills using JSON, Web Services, XML, XSLT, PL/SQL in Unix and Windows environments.</li> <li>• Strong background working with Linux/UNIX environments.</li> <li>• Working knowledge with SQLite/PostgreSQL/MySQL, DB2 or Mongo DB databases.</li> <li>• Passion to stay on top of the latest happenings in the tech world and an attitude to discuss and bring those into play.</li> <li>• Strong agile/scrum development experience</li> <li>• Strong collaboration and communication skills within distributed project teams</li> <li>• Excellent written and verbal communication skills</li> </ul>

<b>Skills Required</b>	Kotlin, Java, Firebase, MVVM, MVP, Mobile App designing, REST/SOAP APIs, Multi-threading, SQLite, Android/IOS App performance Optimization.
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

### VIII. Jr. Software Engineer

<b>Job Code</b>	: <b>JSE/062022/290</b>
<b>Name of Post</b>	: <b>Jr. Software Engineer</b>
<b>Remuneration</b>	: <b>30,000/- – 45,000/- Consolidated</b>
<b>Age</b>	: Should not exceed <b>30 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	B-Tech/MCA or M-Tech/MSc/Eng. Diploma in Information technology or Computer Science from a recognized University/Educational Institution. <b>Note:</b> People with a Master of Science (Specialization in Data Analytics/Geospatial Analysis and Data visualization with Python/Java) and internship (Minimum 6 months) from the IT industry are also considered for this position.
<b>Essential Experience</b>	6 month's relevant experience in a reputed institution
<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Minimum 6 months of experience developing web applications using J2EE.</li> <li>• Minimum 6 months of experience in Spring/Spring Boot or any other MVC framework with Java.</li> <li>• Good knowledge of MicroServices.</li> <li>• Experience working with tools like Git, Maven.</li> <li>• Expertise developing enterprise-level web applications and RESTful APIs using MicroServices, with demonstrable production-scale experience.</li> <li>• Demonstrate strong design and programming skills using JSON, Web Services, XML, JSON, PL/SQL in Unix and Windows environments.</li> <li>• Strong background working with Linux/UNIX environments.</li> <li>• Working knowledge with PostgreSQL/MySQL/DB2/Mongo DB databases.</li> <li>• Passion to stay on top of the latest happenings in the tech world and an attitude to discuss and bring those into play.</li> <li>• Strong agile/scrum development experience</li> <li>• Strong collaboration and communication skills within distributed project teams</li> <li>• Excellent written and verbal communication skills</li> </ul>
<b>Skills Required</b>	Java, Javascript, JQuery/Angular, HTML, CSS, Postgresql/MySQL/MSSQL, Spring/Spring Boot
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

### IX. Sr. Quality Analyst

<b>Job Code</b> <b>Name of Post</b> <b>Remuneration</b> <b>Age</b>	<b>: SQA/062022/290</b> <b>: Sr. Quality Analyst</b> <b>: 40,000/- – 55,000/- Consolidated</b> <b>: Should not exceed 35 Years</b> as on the last date for submission of Application.
<b>Essential Educational Qualification</b>	MCA or B-Tech/BE/M-Tech/MSc (in Information Technology or Computer science) from a recognized University/Educational Institution.
<b>Essential Experience</b>	3 year's relevant experience in a reputed institution
<b>Responsibilities</b>	<ul style="list-style-type: none"> <li>• Mastery in analyzing business, and functional needs and customer requirements</li> <li>• Well versed with SDLC and STLC practices - Ensuring Product quality throughout the development process</li> <li>• Derive key metrics on test effectiveness, issue distributions &amp; Classifications etc</li> <li>• Strong understanding of Core JAVA and OO Concepts</li> <li>• Take ownership and responsibility for the design and development of all aspects of automated testing along with the creation, execution, and maintenance of automated scripts</li> <li>• Critical thinking and analysis skills to determine security risks to data, hardware, and software Good in developing Test plans, Test strategies, Use Cases, Test Cases, Test Scenarios, Bug Reports, Test Summary reports</li> <li>• Must have good experience in testing Microservices/APIs, Web Applications, and Mobile Applications</li> <li>• Min 2 years of experience in Performance Test Tools like Apache J-meter, Load Runner, Locust, Grinder etc</li> <li>• Good working knowledge of compatibility test tools like LambdaTest, BrowserStack, Functionize etc.</li> <li>• Min 2 years of working experience of API test using SOAPUI, POSTMAN, ReadyAPI, Talend API etc.</li> <li>• Well versed with Issue tracking tools like Bugzilla, Zoho, JIRA, Redmine etc -Knowledge of the use of version control systems such as SVN or GIT</li> <li>• Hands-on to configure STE (Selenium Test Environment) with TestNG and design of framework like Data-Driven Framework. Hybrid Testing Framework etc.</li> <li>• Experience with building tools such as Ant, Maven, and Gradle is a plus.</li> <li>• Good in Windows and Linux based test environments for the deployment of applications</li> <li>• Good In DDL and DML on databases like Postgres, MariaDB, MySQL - Work with the Development team to capture and reuse automated Unit Test Cases, Test Stubs and Drivers, and other Development test objects.</li> </ul>

	<ul style="list-style-type: none"> <li>Performs in a lead capacity role within the team in making decisions for the quality assurance of the project / application</li> </ul>
<b>Skills Required</b>	Manual & Automation Testing, Software Test Life cycle, Shift Left test strategy, Test Planning, Test Case design and Review, API Testing, OWASP Guidelines and Tests, Performance Test of APIs and Web applications.
<b>Nature of Appointment</b>	The full-time contract appointment will be initially for a period of three years. However, the term can be extended based on the performance and requirements.

**Age relaxation for submission of application:**

5 years for candidates belonging to SC/ ST and 3 years for OBC candidates.

**Mode of Selection:**

The selection will be based on an interview.

**General Instructions**

- I. A scanned copy of the documents to prove age, qualifications, experience, etc. should be uploaded along with the online application and originals to be produced as and when called for. **Applications without attaching the above documents shall be summarily rejected.** No further chance will be given for submitting the same.
- II. Candidates, who are in the service of the Government of India or any of the State Governments, etc. while applying, should obtain a No Objection Certificate from their Head of Office or Department and keep it with them. If candidates fail to produce the No Objection Certificate as and when called for, his/her candidature will stand canceled.
- III. Candidates should ensure that the particulars furnished by him/her are correct in all respects. **Anything not specifically claimed in the application against the appropriate field will not be considered at a later stage. No deviation whatsoever from the filled-in data will be entertained.** In case it is detected at any stage of the recruitment that a candidate does not fulfill the eligibility norms and /or that he/she furnished any incorrect/false information or has suppressed any material fact, his/her candidature will stand cancelled. If suppression of material facts or furnishing of any incorrect/false information is detected even after the appointment, his/her service is liable to be terminated
- IV. Applications submitted without fulfilling the eligibility and other norms mentioned in this Notification as well as the instructions published in the Recruitment Portal of the University will be summarily rejected.
- V. In case of any discrepancy/ambiguity in the process of selection, the decision of the University shall be final and binding.
- VI. **Consequent up on adoption of self- certification provisions as required by the Govt. of India, the University shall process the applications entirely on the basis of the information / documents provided with the application . The appointment will be provisional and subject to physical verification of the documents.**
- VII. Applications submitted without fulfilling the eligibility and other norms mentioned in this notification as well as the instructions published in the recruitment portal of the University will be summarily rejected.
- VIII. Canvassing in any form will entail the cancellation of candidature.

## How to Apply:

- I. Applications shall be submitted online latest on **10.07.2022**. The application form is available at <https://www.duk.ac.in/careers>.
- II. KUDSIT may consider the Jobseeker profiles from the DWMS system (knowledgmission.kerala.gov.in) based on the matched skill sets and experiences.
- III. The applications received after the last date fixed or the incomplete applications or the applications without filling the relevant field will be summarily rejected.
- IV. No interim queries after the submission of the application will be entertained. The candidates will be intimated the schedule of the Test/ Interview through their registered email only.
- V. The candidates are advised to check their registered e-mails regularly after the last date fixed for the submission of the application.
- VI. The University has the right to cancel the advertisement or entire selection process at any stage without assigning reason thereof and the decision of the University shall be final.

**Registrar**
